

St Issey C of E Primary School

Additional PE & Sports Grant Expenditure: Report to parents: 2016/17

Overview of the school

Amount of PE and Sports Grant to be received	
Fixed amount per primary school	£8000
Additional amount per pupil (Years 1-6 and those aged 5 in Year R – Jan 14 Census)	£5
Total amount of Sports Funding to be received	£8236

Focus of PE and Sports Grant spending 2016/17

Objective 1: Increase numbers of children involved in Extra Curricular PE.

Objective 2: Provide opportunities for more children to represent St Issey in competitive & non-competitive sports.

Objective 3: Enable children representing school to attend practise sessions to improve skills prior to competing

Objective 3: Bridge the gap between children below expectations in PE and the rest of their class/year group.

Actions to Date:

Autumn Term Highlights

Professional sports coach brought in to deliver quality coaching to both KS1 and KS2, ensuring all children get at least 1 hour per week of taught PE curriculum time.

***Sustainability:** Children's skills in PE are improving year on year as well as their confidence to keep active and healthy. Staff are able to enhance on CPD due to observing coaching modelled. Coaching plans can also be accessed and retained by the school for future independent use to increase the

skills of teachers to deliver sport.

St Issey school joined membership with PEPA, a cluster of five local schools providing sporting opportunities for all children to compete against children from other schools. This is highly beneficial to our children given our small numbers on role.

***Sustainability:** Children are getting enhanced opportunities to take part in a wide variety of sports and are also developing their social and team ethics along the way. Each year we will continue to buy into this membership. Future possibilities include developing the role of a sports leader for the older children so that they can learn new skills and bring those back to school with them; thus developing other pupils.

After school clubs run by sports coach of multi-skills; two separate clubs for KS1 and KS2

One SEN pupil received 1:1 specialist sports training to enhance his co-ordination, agility and fine motor skills which has positively impacted on his learning in the classroom as he is now able to write with better fluency and speed due to an improvement in the fundamental skills associated with pen grip.

Events attended this half term:

-KS2 cross country

-Girls football festival

-Our Girls Can (an event run at the Royal Cornwall Showground inviting girls to come along and get involved in being active. All of our year 5 and 6 girls attended and experienced new sports and returned with ideas for future after school clubs.)

-Multi skills festival for KS1 involving 8 children. They came second place out of the cluster.

-KS2 cross country

Spring Term Highlights

After school clubs run by sports coach of multi-skills; two separate clubs for KS1 and KS2

One SEN pupil received 1:1 specialist sports training to enhance his co-ordination, agility and fine motor skills which has positively impacted on his learning in the classroom as he is now able to write with better fluency and speed due to an improvement in the fundamental skills associated with pen grip.

This half term we began using our sports coach to deliver training during after school clubs on sporting events which were approaching. This was on the request of parents and children who wanted their children better prepared for upcoming competitions.

***Sustainability:** Children are better prepared to compete against others having practised a particular sport or skill. As their skills develop, these can then be passed along to other pupils in school. Parents are keen to get involved as their suggestions are taken on board meaning we have a secure foundation for future sporting development.

Sports leaders from Wadebridge Secondary school came in for an afternoon to deliver extra PE sessions to all of our children in small groups.

We hosted an assembly run by Chartwells to promote the ideals of healthy eating both within and outside of the school. Parents were also invited to this and children were able to have a ride on the smoothie bike.

***Sustainability:** Children are more aware of how to eat healthy and how to lead an active lifestyle. They are aware of the importance of eating and living healthily and can carry this with them into daily life.

We have begun leading an outdoor Forest school to give our KS1 children an opportunity to take part in outdoor learning. The future plan is to develop this to provide seating area and assault course.

***Sustainability:** Children are being given the opportunity to explore the outdoors safely. Other members of staff can begin to build their skills by shadowing our existing forest school leader with a vision to obtaining an official qualification for another member of staff in the future.

Events attended this half term:

-Swim festival (where we took a large group of children, with parents, to compete in a variety of strokes and races. We came first out of the small schools.)

-Multi-skills festival for KS1

-Badminton Festival for years 3 and 4. This was a great opportunity for all of our Year 3 and 4 children to have a go at playing Badminton. Many hadn't previously had the opportunity to try this sport or represent the school in an outside event.

-KS2 cross country – 2 of our runners qualified for the county championships. Another of our pupils from year 6 took part in an extra 'gifted and talented' sporting event whereby he qualified for the county sprint finals in May.

-Dance festival. For a few weeks running up to this event, we ran an extra dance club after school to teach children a new dance routine and to prepare them for the competition. Children then performed their dance in a school assembly and whilst the competition was eventually cancelled, they still visited another school to perform their routine to the other competitors.

KS1 children all took part in a group of balanceability sessions to give them opportunities to develop balance and co-ordination. This was delivered by a professional outside coach.

Our winning house team, Trevone, also visited the local 'Clip n Climb' centre to take part in an afternoon of rock climbing and abseiling.

We also took on a Karate coach to run karate lessons for all children who wished to attend. Those children have now progressed enough to begin taking their gradings to achieve coloured belts.

Summer Term Highlights

After school clubs run by sports coach of multi-skills; two separate clubs for KS1 and KS2

One SEN pupil received 1:1 specialist sports training to enhance his co-ordination, agility and fine motor skills which has positively impacted on his learning in the classroom as he is now able to write with better fluency and speed due to an improvement in the fundamental skills associated with pen grip.

We fund all our children from Yr R-Yr 6 to take part in swimming lessons. This begins on 17th May.

***Sustainability:** Children in Cornwall learn to swim and learn about how to stay safe in the water.

Each year, their skills are built upon meaning when they leave our school, all are able to swim independently. This is vital for any child living in Cornwall and fosters a love of the water which children can take into daily life.

Cricket assembly undertaken by professional coach to inform children all about cricket and to show them the basics of the game.

Events attended so far:

- Camel challenge; a round robin football tournament
- KS1 cross country

Measuring the impact of PE and Sports Grant spending

Impact measures:

- Individual children's assessments through the four strands – Physical, Social, Thinking & Healthy.
- Widening of opportunities provided to children to take part in a variety of additional sports extra to the curriculum.
- Confidence of children wanting to take part in extra -curricular events. Only a very small number of children have now yet to represent the school in a sporting endeavour.
- Number of children involved in sports clubs after school.
- Learning walks targeting the quality of PE delivered by teaching staff, including external coaches (to be continued during Summer term 2)

Planned Spending and Actions for 2017/18

Current planned expenditure for 2017/18:

- Sports coaching to include extra after school clubs: £2200
- Specialist after school clubs (karate and one other): £1000
- Swimming for whole school: £1800
- Go-Kart track (go-karts already purchased; part subsidised by school fundraising): £500
- Additional PE equipment for playtimes and new netball posts: £500
- Development of school sports field to include tracks (which will enable us to host local sporting events organised by PEPA): £500
- Development of Forest School provision (to include one staff member CPD to run): £1000
- New sporting uniform to replace existing (to include new logo): £500

Funding for 2017/18 - £8000

- Renew membership with PEPA cluster schools to enable more children to take part in sporting events and opportunities.
- Develop links with Trevithick Learning Academy to develop inter- house and cross-school sporting tournaments
- Funding additional after school clubs – targeting less active and engaged children. Increase the number of these clubs to appeal to more children.
- Continue use of Sports coaches to support curriculum and extra-curricular delivery through their offer of alternative sports to target our less engaged children and those with additional needs.
- Develop forest school provision to increase opportunities for outdoor learning.
